

PROPOSED WATER BOREHOLE DRILLING SITE AT MUKUYU

Bold Impact Africa is currently in the process of lobbying the government and other stakeholders to drill a borehole at one of the local school called Mukuyu Primary School. On 30th June , 2022, Bold Impact Africa invited Steven Susens of the USAID Washington DC at the proposed drilling site in Mukuyu Primary School, in an effort to mobilize funds to drill a borehole at the school to allow access to water for use at the school garden, cleaning of classrooms and use at the school feeding program Kitchen.
